

Safe Pick-Up System

Thank you so much for your patience this week as we implemented a safer pick-up system. We have more than cut our time in half this week, and will continue to make adjustments to help improve the process. Below are a few items you (the driver) can do to help the process.

1. Please make sure your name plate is visible in your window. If you need a new nameplate, please let the teacher or office know.
2. Please do not enter the circle drive until directed by a staff member.
3. If you need to get out of your car to buckle your child in, we will be directing you to the parking lot north curb. This will allow us to keep the line moving.
4. When waiting in the pick-up line, please help keep our community safe, by:
 - a. Hugging the curb to create more room on the street for through traffic.
 - b. Only turn right onto Nixon Drive from Northbrook. (Preferred to left turns onto Nixon Drive.) This will keep traffic being backed up to Robins Road.
 - c. Do not block someone's driveway or another street.

Please remember you still have the option to have your child walk. You would park off-campus, and walk to the front of the building to meet your child near the flagpole. If you are choosing or changing this option, please let the classroom teacher know.
